

GEO111 – NUMERICAL SKILLS IN GEOSCIENCE

week #02: Plotting and visualizing data

4th, 8th April 2016

Work through Sections 2.1 and 2.2 of Chapter #2 of the GEO111 'Numerical Skills in Geoscience' course handout. In addition, make sure that you have read through, if not tried out some of the examples, in:

- **MATLAB®7 – Getting Started Guide**
 - Chapter 3 – *Graphics* (up until page 3-64)

The nominal course textbook (MATLAB – A practical introduction ...) has some useful material, but nothing coherent and introductory. By all means pick at some of the topics in this book.
