

GEO157:

Introduction to Geographic Information Science

Andy Ridgwell

GEO157

	Monday am (1)	Monday am (2)	Monday	Friday am	Friday
WEEK	Lecture A 09:10-10:30 Sproul 2225	Lecture B 10:40-12:00 Sproul 2225	Office Hours: 12-2 pm	LAB 09:10-12:00 Sproul 2225	Exrta lab hours: 12-2 pm
(#1) 2nd / 6th April	Course introduction Course introduction and logistics. Laptop software installation.			fake 'fieldwork' fun Paper-based and web-based GIS-like problems.	
(#2) 9th / 13th April	Lecture 1, Discussion Chapter 1: What is GIS?	Lecture 2 Chapter 2: Spatial data		Lab 1 Digitizing	
	Problem Set 0 due	Problem Set 1 (Ch. 1)			
(#3) 16th / 20th April	Worked problems	Lecture 3 Chapter 3: Spatial data modelling		Lab 2 GPS, Georeferencing, and Geocoding	
	Problem Set 1 due	Problem Set 2 (Ch. 2+3)		Lab 1 due	
(#4) 23rd / 27th April	Worked problems	Lecture 4 Chapter 4: Database management		Lab 3 Interpolating weather	
	Problem Set 2 due			Lab 2 due	
(#5) 30th / 4th May	Worked problems	Lecture 5 Chapter 5: Data input and editing		Lab 4 Vector analysis using earthquake data	
	Oral presentations set	Problem Set 3 (Ch. 4+5)		Lab 3 due	

3 short exercises to ease you into GIS thinking.

May be completed today in class, or after class, or over the weekend ... as long as handed in on Monday.

BONUS % (3) will be awarded.

An Introduction to Geographical Information Systems

by: Ian Heywood, Sarah Cornelius, University of Aberdeen; Steve Carver, University of Leeds

The first 5 chapters are available electronically from the library, up until the start of week 6 (when chapters 1-5 are examined in the Mid-term).

<http://scotty.ucr.edu/search/a?searchtype=r&searcharg=GEO+157&SORT=D&submit=Search>

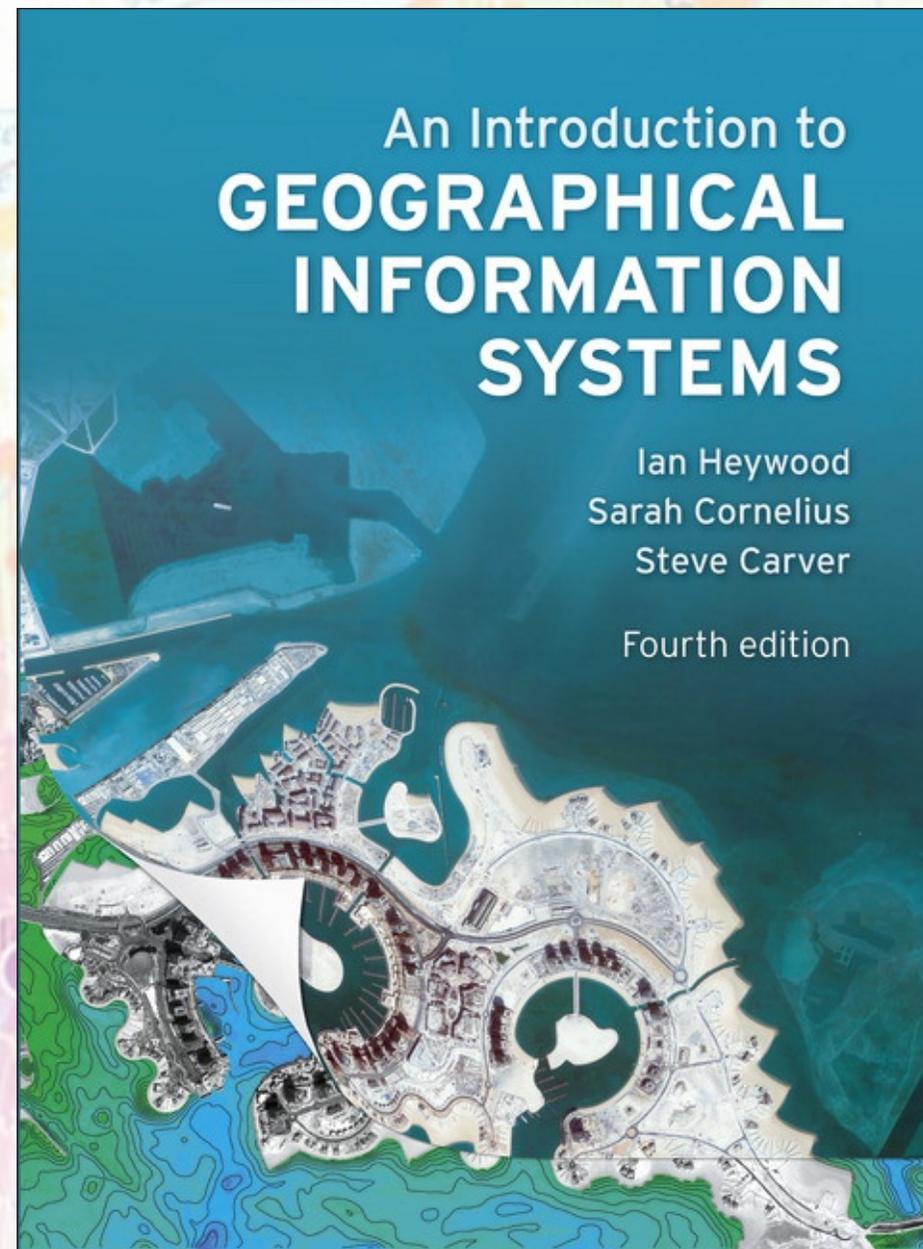

or

password: **pinkiepie**

At the start of week 6, Chapters 6&7 will be made available (in place of 1-5).

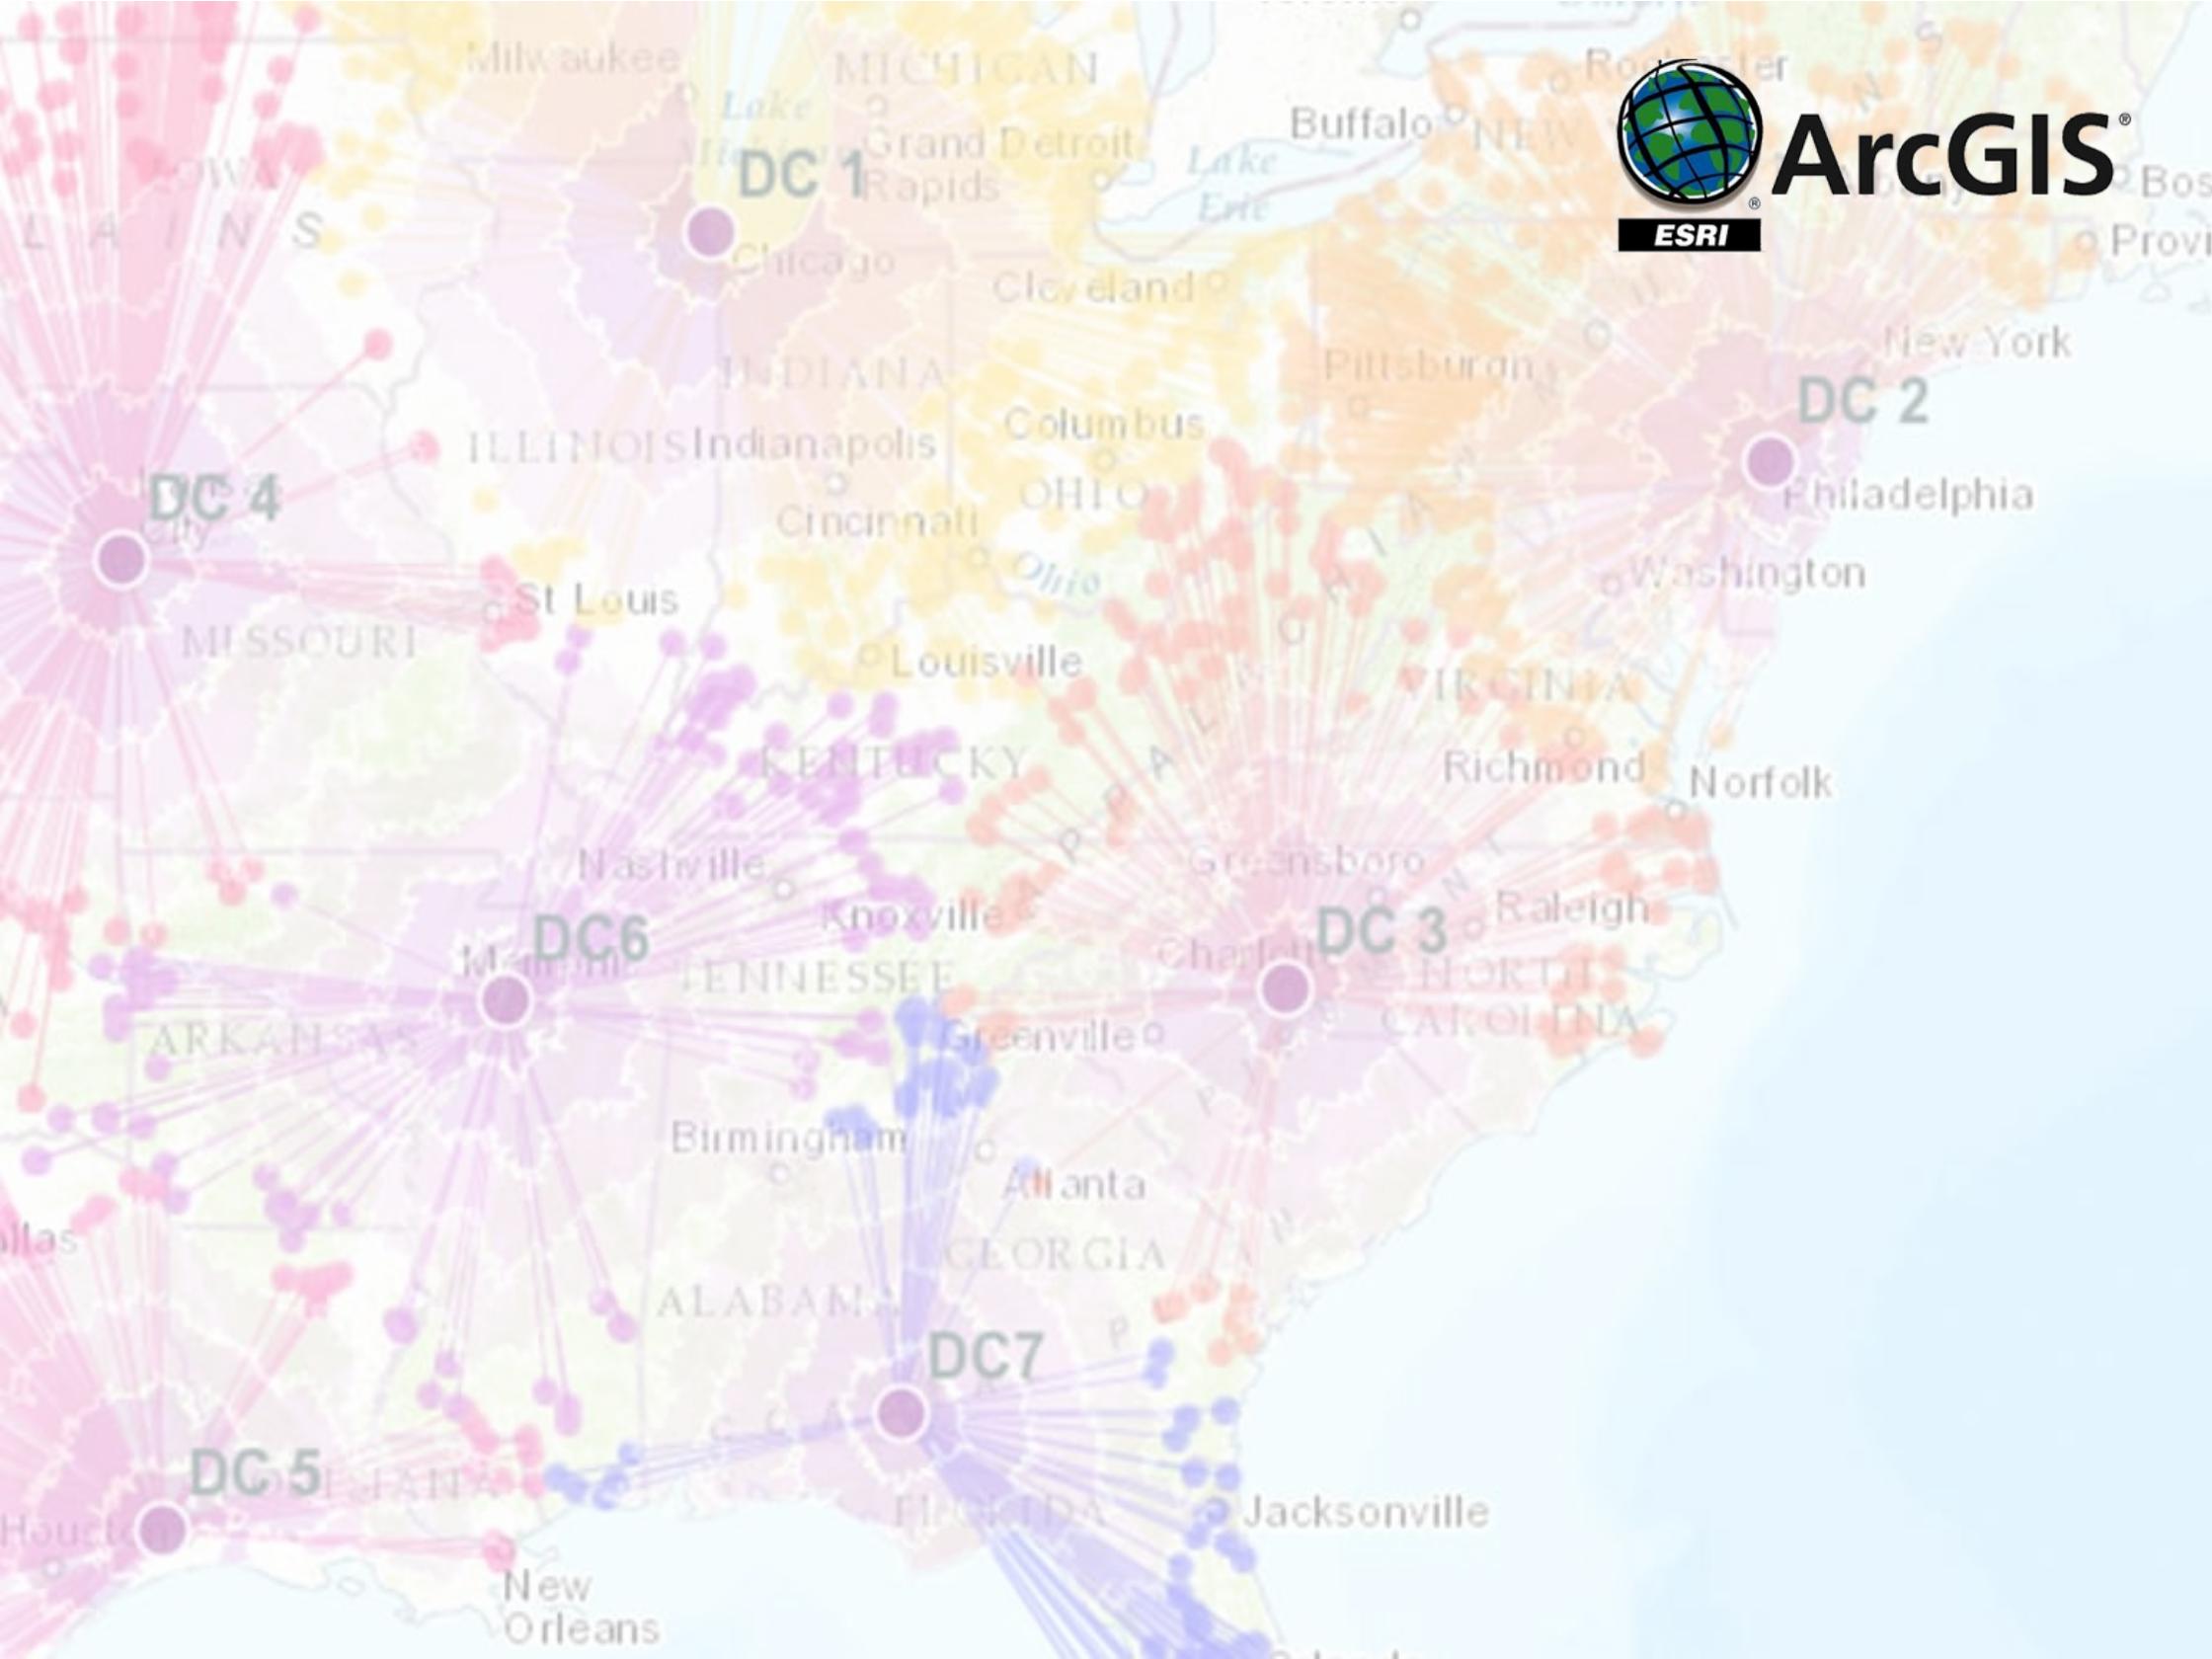

I also have several copies that I can loan out, one week at a time (so everyone has a chance of borrow if they wish).

ArcGIS®

ESRI

ArcGIS

<http://sitelicense.ucr.edu/arcgisstudent.html>

- Log into MySoftware.ucr.edu and select ArcGIS to download the software package and receive an EVA authorization code. This authorization code will be emailed to you.
- Check the ArcGIS system requirements to make sure your computer has the hardware and software required.
- Visit www.esri.com/StudentEdition to begin the process of activating your ArcGIS Desktop Student software.
- Log in using your existing Esri Global Account or Sign-up for a new Esri Global account. Use your @ucr.edu email address when creating the account.
- Validate the EVA authorization code (acquired from MySoftware), with ESRI. Enter the code and click "Activate ArcGIS".
- Extract the ArcGIS software package downloaded from MySoftware. Locate and run ArcGIS_Desktop_10[xx].exe to install ArcGIS for Desktop. The "Complete" installation is recommended.
- After the files are installed, the Authorization Wizard will open and prompt you to choose a product to authorize; select "Advanced (Single Use)" and click continue. Select "I have installed my software and need to authorize it." The next prompts will ask for personal information.
- The Authorization Wizard will prompt you for an authorization code; enter your activated code. Choose "I have authorization number(s) to authorize one or more extensions". Follow the prompts and the software will authorize and be ready for use. Note: Leave the default option for the software extensions selected; they will be authorized automatically.
